

HYSSR PERIOD IDENTIFIERS

PC Version 1.0

This version of HYSSR contains the capability to use 24 study periods. Currently data exists to run studies using 14 periods. Initially on the PC, HYSSR will be run with these 14 periods. Studies with 14 periods have April and August split. Studies with 24 periods will have all periods split. When all necessary data exists to utilize more than 14 periods, HYSSR will be ready.

Below are the period names, their HYSSR identifiers and their julian dates. All period names are based on their end of period value since HYSSR input and output is almost always in terms of end of period values.
