Jack Sands
U.S. Army Corps of Engineers, Walla Walla District
201 N. Third Ave
Walla Walla, WA 99362-1876

Dear Mr. Sands:

This is in response to your March 11, 2013 letter requesting approval for access to Bonneville Dam for the purpose of installing, monitoring and maintaining a temporary full-size hydrofoil PIT-tag monitoring system at the B2CC. This activity has been accepted by FPOM, as noted in MOC 13BON05 B2CC hydrofoil PIT detector test.doc

With respect to the work outlined above, your request is generally approved, provided you are able to obtain all necessary ESA and state permits. **No work may begin until permits, or an explanation as to why permits are not required, are on file with the Mr. Andy Traylor and Ms. Tammy Mackey.**

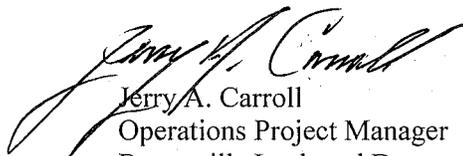

Prior to beginning work, please arrange a meeting with Mr. Andy Traylor, 541-374-4020. You will need to provide a Project impact statement, job hazard analysis, copies of permits, and a personnel list. Please send electronic copies of these documents to Mr. Traylor, Andrew.w.traylor@usace.army.mil and to Ms. Tammy Mackey, tammy.m.mackey@usace.army.mil.

Please remain in contact with Mr. Traylor throughout your time at the dam. There are many researchers and contractors working at the dam, please work to ensure good communication and cooperation between agencies and organizations.

A copy of this letter has been posted to NWP 2013 Access Responses found at <http://www.nwd-we.usace.army.mil/tmt/documents/FPOM/2010/NWP%20Research/Research.html>

If you have questions regarding this correspondence, please contact Ms. Mackey via e-mail or by phone, at 503-961-5733.

Sincerely,

Jerry A. Carroll
Operations Project Manager
Bonneville Lock and Dam
