Dear Ms. Woodley:

This is in response to your February 5, 2013 letter requesting approval for access to Bonneville Dam's Juvenile Monitoring Facility (JMF) for the purposes of collecting 740 juvenile chinook between March 25 – May 31 as part of the NWP funded research: Study Plan to Determine the Relationship between Growth and Habitat Conditions Salmonids. Ms. Cindy Studebaker is the PM-E point of contact.

With respect to the work outlined above, your request is generally approved, provided you are able to obtain all necessary ESA and state permits. **No work may begin until permits, or an explanation as to why permits are not required, are on file with the Mr. Andy Traylor and Ms. Tammy Mackey.**

Prior to beginning work, please arrange a meeting with Mr. Andy Traylor, 541-374-4020. You will need to provide a Project impact statement, job hazard analysis, copies of permits, and a personnel list. Please send electronic copies of these documents to Mr. Traylor, Andrew.W.Traylor@usace.army.mil and to Ms. Tammy Mackey, tammy.m.mackey@usace.army.mil.

Please remain in contact with Mr. Traylor throughout your time at the dam. There are many researchers and contractors working at the dam, please work to ensure good communication and cooperation between agencies and organizations.

In addition to coordinating with Project Fisheries, you will also coordinate collection activities with JMF Smolt Monitoring Personnel Rick Martinson, rickdm@gorge.net and Dean Ballinger, deanb@gorge.net.

A copy of this letter has been posted to NWP 2013 Access Responses found at <http://www.nwd-wc.usace.army.mil/tmt/documents/FPOM/2010/NWP%20Research/Research.html>

If you have questions regarding this correspondence, please contact Ms. Mackey via e-mail or by phone, at 503-961-5733.

Sincerely,

Jerry A. Carroll
Operations Manager
Bonneville Lock and Dam
