Bonneville Lock and Dam

Mr. Eric Kinne  
Washington Department of Fish and Wildlife  
2108 Grand Blvd  
Vancouver, WA 98661

Dear Mr. Kinne:

This is in response to your 2013 letter requesting approval for access to Bonneville Dam's Adult Fish Facility (AFF) for the purposes of collecting and PIT tagging up to 4000 adult salmonids (1000 adult steelhead 1000 coho and up to 2000 adult Chinook (1000 tules and 1000 brights)). Fish collection and tagging would occur from August through October. As per prior conversations, you will be required to follow all protocols found in the 2013 Fish Passage Plan (FPP) Appendix G- AFF protocols for Bonneville Dam. In addition, you will need to comply with all reporting requirements found in the 2013 FPP section BON 3.3.3. With respect to these activities, your request is generally approved, provided you obtain all necessary ESA permits and your activities do not inhibit the ability to accomplish 2013 USACE funded research.

Prior to beginning work, please arrange a meeting with Mr. Andy Traylor, 541-374-4020. You will need to provide a Project impact statement, job hazard analysis, copies of permits, and a personnel list. Please send electronic copies of these documents to Mr. Traylor, [Andrew.W.Traylor@usace.army.mil](mailto:Andrew.W.Traylor@usace.army.mil) and to Ms. Tammy Mackey, [tammy.m.mackey@usace.army.mil](mailto:tammy.m.mackey@usace.army.mil).

Please remain in contact with Mr. Traylor throughout your time at the dam. There are many researchers and contractors working at the dam, please work to ensure good communication and cooperation between agencies and organizations.

A copy of this letter has been posted to <http://www.nwd-wc.usace.army.mil/tmt/documents/FPOM/2010/NWP%20Research/2013%20NWP%20Access/>.

If you have questions regarding this correspondence, please contact Ms. Mackey via e-mail or by phone, at 503-961-5733.

Sincerely,

Jerry A. Carroll  
Operations Project Manager  
Bonneville Lock and Dam
