

**Yakama Nation Fisheries Resources and Management Program  
Pacific Lamprey Project  
BONNEVILLE DAM 2016**

**PROJECT WORK PLAN**

A key component to restoring Pacific lampreys to the Yakima River subbasin and other rivers within the Yakama Nation Ceded Lands is to collect adults from lower Columbia River dams for outplanting. The Yakama Nation Fisheries Resource Management Program (YNFRMP) proposes to collect up to 215 adult Pacific lampreys from Bonneville Project fish way. YNFRMP staff would come to Bonneville Dam and pick up adult lampreys from the Adult Fish Facility (AFF) traps on the Washington Shore. We will insure timely pickup times to not exceed the 48 hour maximum holding time in the AFF holding tanks. Upon USACOE approval, YNFRMP anticipates beginning this collection in May/June 2016 and continuing until last week of September or until target is met, whichever is first. We would utilize our 300 gallon fish transport tank for moving adults on and off the project. YNFRMP has permitting to collect adult lampreys at the project. FPOM already approved this work 2010-2015 and we request approval for 2016. YNFRMP would work with other tribes to help facilitate their perspective collections as well.

**PROJECT IMPACT STATEMENT**

YNFRMP has no anticipated impacts to the existing project activities. Measures will be taken to assure project safety.

**JOB HAZARD SAFETY ANALYSIS**

See attached Job Hazard Safety Analysis sheet.

**MATERIAL SAFETY DATA SHEETS (MSDS)**

No hazardous materials will be brought on site for this activity.

**FUNDING ARRANGEMENTS**

No project support will be necessary to perform job activities.

**PERMITS**

YNFRMP Pacific Lamprey Project has a permit for collection issued from the Yakama Nation.
