

**OFFICIAL COORDINATION REQUEST FOR
NON-ROUTINE OPERATIONS AND MAINTENANCE**

COORDINATION TITLE - Shutdown of Fall Creek Fish Facility Operations

COORDINATION DATE - 10 September 2015

PROJECT- Fall Creek Fish Facility (Fall Creek Dam)

RESPONSE DATE - 21 September 2015

Description of the problem - To allow early mobilization of the water supply contractor during initial construction of the new fish facility at Fall Creek Dam, the Corps requests the facility be shut down on September 25. This will mitigate this construction impacting upstream migration of adults during next fish collection season in 2016.

Type of outage required - Early shutdown of operations at the Fall Creek Fish Facility is requested to provide early mobilization for the water supply contractor.

Impact on facility operation - This will shut down the fish facility approximately 2 weeks early, however, there are very few fish that return to Fall Creek Fish Facility by October 1 for transport above the dam (Table 1).

Dates of impacts/repairs – The facility will be shutdown September, 25 2015. The facility is typically operated into mid-October. The contractor may begin work September 28, 2015.

Expected impacts on fish passage - minimal

Table 1. Fall Creek Fish Facility Outplanted Chs Abv Dam 2005-2014 - % of Outplanted Run Collected by Date				
Run Year	Total Outplant Chs Abv Dam Adult	% of run by 1 Sept	% of run by 15 Sept	% of run by 1 October
2005	802	97+	100	100
2006	613	84+	96+	100
2007	339	98	100	100
2008	292	76+	98+	100
2009	354	91	96+	99+
2010	540	96+	98+	99+
2011	365	91+	96+	99+
2012	338	99+	100	100
2013	467	98+	98+	99+
2014	456	98+	99+	99+
