Planning, Programs and Project
Management Division

Dear WATER HMT member:

Enclosed for your review is the draft document entitled *An Evaluation of Spring Chinook Salmon Reintroductions Above Detroit Dam, North Santiam River, Using Genetic Pedigree Analysis*, prepared by OSU and ODFW. This report provides important information to meet several Reasonable and Prudent Measures (9.5.1(4); 4.1; 4.7; 6.2.3; and 9.3) of the Willamette Project Biological Opinion (NMFS 2008) related to restoring productivity of Chinook salmon upstream of project dams.

Please send the Corps written comments on agency letterhead no later than June 19, 2015. If you have questions, please contact David Leonhardt at david.s.leonhardt@usace.army.mil, (503) 808-4786.

Thank you for your continued participation in WATER Team activities.

Sincerely,

A handwritten signature in blue ink that reads "Joyce E. Casey".
