

FPP Change Form

Change Request Number: 10LWG002

Date: November 4, 2009

Proposed by:

John Bailey – NWW – Operations.

Original 2009 version

1.1.2. Juvenile Migration Timing. Juvenile migration timing at Lower Granite Dam is indicated in **Table LWG-1**. The dates in the table are based on juvenile fish collection numbers and do not reflect FGE or spill passage. Salmon, steelhead, bull trout, lamprey, and other species are routinely counted. Maintenance of juvenile fish passage facilities that may impact juvenile fish passage or facility operations should be conducted during the winter maintenance season.

Table LWG-1. Juvenile migration timing at Lower Granite Dam based on juvenile fish collection numbers.

% Collection	2004	2005	2006	2007	2008
Clipped Yearling Chinook
