Original 2009 version

1.1.2. Juvenile Migration Timing. Juvenile migration timing at McNary Dam is indicated in **Table MCN-1**. The dates in the table are based on juvenile fish collection numbers and do not reflect FGE or spill passage. Salmon, steelhead, bull trout, lamprey, and other species are routinely counted. Maintenance of juvenile fish passage facilities that may impact juvenile fish passage or facility operations should be conducted during the winter maintenance season.
