

Change Request Number: 11LWG003

Date: December 15, 2010

Proposed by: David Benner, FPC

Location of Change- Table LWG-4

Proposed Change: Table LWG-4. Adult Count period and peak migration timing at Lower Granite Dam from 1975-2009 (2010?) based on fish counts.

Species	Counting Period	Date of Peak Passage	
		Earliest	Latest
Spring Chinook	3/1 - 6/17	4/26	5/27
Summer Chinook	6/18 - 8/17	6/18	7/17
Fall Chinook	8/18 - 12/15 <u>(12/30?)</u>	9/5	10/6
Steelhead	3/1 - 12/15 <u>(12/30?)</u>	9/3	10/16
Sockeye	3/1 - 10/31	7/1	7/19
Lamprey	4/1 - 10/31	7/18	7/25

Reason for Change: Table heading should reflect what is in the table. Tables 3 refers to the video counts (0600-1600) occurring through December 31st. Table LWG-4 says that fall Chinook and steelhead counts only extend through December 15th.
