

Fish Passage Plan (FPP) Change Request Form

Change Form # & Title: 16LMN001 – 2016 Doble Testing
Date Submitted: Dec 10, 2015
Project: LMN
Requester Name, Agency: Sarah Wilson, USACE, CENWW-OD-WL
Final Action: **WITHDRAWN (move to Appendix A)**

FPP Section:

LMN section 4.3.5 Turbine Unit Maintenance – Doble Testing.

Justification:

Change is to provide dates during which Doble Testing will occur in 2016.

Proposed Change:

Transformer Bank T-1 will be Doble tested during the period 29 July to 5 August 2016. This is part of the cyclical maintenance performed on the transformers.

Comments:

1/28/2016 FPP Meeting: Yearly dates for Doble testing will remain in Appendix A. FPOM would like to see rationale behind why dates were selected (e.g., unit(s) already scheduled out of service for maintenance?) and corresponding fish passage data.

For future years, the request is to submit one change form per year to add Doble testing schedule for all projects to Appendix A. The change form should include the dates for Doble testing at all projects planned for that year, the rationale behind why the dates were selected, and the corresponding fish passage data (all species).

Record of Final Action: WITHDRAWN. Move to Appendix A.
