

Fish Passage Plan (FPP) Change Request Form

Change Form # & Title: 16LWG006 – Delete Outdated Language
Date Submitted: January 26, 2016
Project: Lower Granite
Requester Name, Agency: Corps NWW
Final Action: **APPROVED – January 28, 2016**

FPP Section: LWG section 2.4.2.13. Operating Criteria - Adult Fish Facilities – Fish Passage Season (Mar 1-Dec 31) – Adult Trap Holding Tanks.

Justification for Change: Deletes outdated language from 2009. Language was added in change form “09LWG006” to reference a review of adult fish trap configuration and operation during winter maintenance 2009. We changed forebay levels to increase water supply in the adult fish holding facility. After a butterfly valve was replaced in Nov- Dec 2009, we were to check the amount of water in the holding tanks in 2010 late summer without increasing the forebay elevation. Test worked at normal MOP all the way through the trapping season.

Proposed Change:

Current FPP:

2.4.2.13. Adult Trap Holding Tanks.

v. Current configuration and operation of the adult fish trap are being reviewed during winter maintenance period 2009. Changes if needed to existing configurations will be completed prior to the fish passage season. If any changes in the Lower Granite reservoir elevation are needed, these will be coordinated through CENWW-OD-T, in consultation with NOAA Fisheries, and the regional members of FPOM. In-season operational changes that deviate from MOP will be coordinated through TMT.

Proposed Change: Delete the entire paragraph v.

2.4.2.13. Adult Trap Holding Tanks.

~~v. Current configuration and operation of the adult fish trap are being reviewed during winter maintenance period 2009. Changes if needed to existing configurations will be completed prior to the fish passage season. If any changes in the Lower Granite reservoir elevation are needed, these will be coordinated through CENWW-OD-T, in consultation with NOAA Fisheries, and the regional members of FPOM. In-season operational changes that deviate from MOP will be coordinated through TMT.~~

Comments:

Record of Final Action: APPROVED at FPP meeting 1/28/2016.
